CERTIFICATE OF COMPLIANCE – POPs General Compliance Statement

This statement confirms that Switchcraft is aware of the requirements of EU Regulation 2019/1021 on Persistent Organic Compounds (POPs) dated 20 June 2019 and intends to comply with the requirement in regards to material content for new product releases and legacy products with current production.

Substances identified in Annex I, Annex II (null), Annex III and Annex IV (waste management), are not used in the manufacturing processes for our products. Waste management as described in Annex V, as applicable, are in compliance with local laws and regulations.

Specific product POPs Certificates of Compliance are available on request.

We reserve the right to make material changes and substitutions in our product that will not impact this certification.

None of our materials were analyzed for content, relying on the material supplier for Certifications and available MSDS.
