**Switchcraft Pro Audio**

**Switchcraft® Applications**

### Live Sound

Switchcraft® offers a wide range of professional products for live sound applications. This includes a full line of cable assemblies designed for broadcast, live sound, and custom applications. Our products are used by audio engineers and system integrators worldwide. Switchcraft® is known for its high-quality XLR connectors, which are used in live sound and recording applications. The company's history and reputation are built on the quality of its products, which are designed to withstand the rigors of the professional audio industry. Switchcraft® is committed to providing reliable and high-quality equipment to meet the needs of audio professionals. Our products are used in a variety of applications, from live sound to recording studios. Whether you need connectors, patchbays, or other audio equipment, Switchcraft® has the solution for you. Today, Switchcraft® is recognized as the leading manufacturer of professional audio equipment, and our products are used around the world.**

**Applications**

- **Live Sound**: Switchcraft® offers a wide range of professional products for live sound applications. This includes a full line of cable assemblies designed for broadcast, live sound, and custom applications. Our products are used by audio engineers and system integrators worldwide. Switchcraft® is known for its high-quality XLR connectors, which are used in live sound and recording applications. The company's history and reputation are built on the quality of its products, which are designed to withstand the rigors of the professional audio industry. Switchcraft® is committed to providing reliable and high-quality equipment to meet the needs of audio professionals. Our products are used in a variety of applications, from live sound to recording studios. Whether you need connectors, patchbays, or other audio equipment, Switchcraft® has the solution for you. Today, Switchcraft® is recognized as the leading manufacturer of professional audio equipment, and our products are used around the world.

---

**Swatchcraft**

**Data Cables**: Switchcraft offers a full line of data cable products designed for a variety of applications. These include CAT5e, CAT6, and fiber optic cables, which are used in a wide range of applications, from networking to audio video interconnect. Our products are designed to meet the needs of professionals in the audio-visual industry, and we offer a full range of accessories to complement our cable products. Whether you need high-quality cable or a reliable data connection, Switchcraft has the solution for you. Our products are used in a variety of applications, from live sound to recording studios. Whether you need connectors, patchbays, or other audio equipment, Switchcraft has the solution for you. Today, Switchcraft is recognized as the leading manufacturer of professional audio equipment, and our products are used around the world.

---

**Cable Assemblies**: Audio and video systems are only as good as the cable assembly that links them together. In Switchcraft, we ensure success by providing the highest quality, value-priced cable assemblies that are compatible with all our patchbay, patchpanels, and XLR connectors. We also offer custom cable assemblies and patchpanel rear enviro power specifications.

---

**Patchbays**: Early in the information technology industry, telephone Patchbays allowed operators to create the next generation of direct boxes, mic splitters, and audio systems. The XLR has been the industry standard for connecting audio and video signals in the world’s largest broadcast facilities. Switchcraft’s VPP, MVP, and MMVP Micro Video Patchbays are used to patch high-definition video signals in the world’s largest broadcast facilities. For video, Switchcraft's VPP, MVP, and MMVP Micro Video Patchbays are used to patch high-definition video signals in the world’s largest broadcast facilities. The XLR has remained the industry standard for connecting audio and video signals in the world’s largest broadcast facilities. Switchcraft’s VPP, MVP, and MMVP Micro Video Patchbays are used to patch high-definition video signals in the world’s largest broadcast facilities.

---

**Connectors**: In 1946, Switchcraft®, located in Chicago, IL, started designing and manufacturing premium quality jacks and plugs. Switchcraft quickly became the industry standard for audio connectors. Our A3 series connectors are designed to provide the highest quality, value-priced audio connectors that are compatible with all our patchbay, patchpanels, and XLR connectors. We also offer custom cable assemblies and patchpanel rear enviro power specifications.
Switchcraft® offers a wide range of professional products for live sound, broadcast, recording, and systems integration applications. This includes a full line of audio, video, and data patchbays, patchcords, connectors, and accessories, as well as various other products for integrating audio, video, and data systems for the professional and consumer markets.

**Broadcast**
- Switchcraft® is known for its high-quality connectors used in live sound applications around the world.
- Products include professional-grade connectors, patchbays, and accessories.

**Live Sound**
- Switchcraft® manufactures, distributes, and services professional audio and video patchbay solutions.
- Products are designed for broadcast, recording, and live sound applications.

**Recording**
- Switchcraft® offers a wide range of professional products for recording engineers, including patchbays, patchcords, connectors, and accessories.
- Products are designed to meet the highest standards of audio quality and reliability.

**Systems Integration**
- Switchcraft® provides a full line of audio and video patchbays and connectors for systems integration applications.
- Products are designed to meet the needs of systems integrators and audio engineers alike.

**Applications**
- Switchcraft® offers products for a wide range of applications, including broadcast, recording, systems integration, and more.
- Products are designed to meet the needs of professionals in the audio, video, and data industries.

**Switchcraft®**
- A trusted name in the audio, video, and data industries, Switchcraft® is known for its high-quality products and its commitment to customer satisfaction.

**ProAudio**
- Switchcraft® is dedicated to providing professional-grade products for the audio, video, and data industries.
- Products are designed to meet the needs of professionals in the audio, video, and data industries.

**Connectors**
- Switchcraft® offers a wide range of connectors, including XLR connectors, microphone jacks, and more.
- Products are designed to meet the needs of professionals in the audio, video, and data industries.

**Cable Assemblies**
- Switchcraft® offers a wide range of cable assemblies, including audio and video cables.
- Products are designed to meet the needs of professionals in the audio, video, and data industries.

**Summary**
- Switchcraft® is a trusted name in the audio, video, and data industries, offering high-quality products and services for professionals around the world.

**Contact Information**
- Switchcraft® can be contacted at the following locations:
  - **International Sales Office**
    - Phone: +44 (0) 23 9269 1506
    - Fax: +44 (0) 23 9269 1505

**Quality**
- Switchcraft® is committed to producing the highest quality products and services for professionals in the audio, video, and data industries.
- Products are designed to meet the needs of professionals in the audio, video, and data industries.
Switchcraft® offers a wide range of premium interconnect products for use worldwide.

Applications

**Live Sound**
Switchcraft® offers a wide range of premium interconnect products for use worldwide. The majority of its products are based on the XM® connector which has been widely recognized as the industry standard for audio and video. The XM® connector is a robust, reliable, and versatile interconnect solution that provides superior performance and flexibility.

**Broadcast**
Switchcraft® is a leading manufacturer of premium audio connectors used in broadcast facilities. The company offers a wide range of interconnect solutions for the broadcast industry, including rack mount patch panels, audio splitter boxes, and breakout cables.

**Recording**
Switchcraft® provides high-quality interconnect solutions for the recording industry. The company offers a wide range of interconnect solutions for recording studios, including rack mount patch panels, audio splitter boxes, and breakout cables.

**Broadcast**
Switchcraft® is a leading manufacturer of premium audio connectors used in broadcast facilities. The company offers a wide range of interconnect solutions for the broadcast industry, including rack mount patch panels, audio splitter boxes, and breakout cables.

**Recording**
Switchcraft® provides high-quality interconnect solutions for the recording industry. The company offers a wide range of interconnect solutions for recording studios, including rack mount patch panels, audio splitter boxes, and breakout cables.

**Video Systems**
Switchcraft® offers a wide range of premium video interconnect solutions for the video systems industry. The company offers a wide range of interconnect solutions for video systems, including rack mount patch panels, video splitter boxes, and breakout cables.

**Custom Interconnect**
Switchcraft® offers a wide range of custom interconnect solutions for the custom interconnect industry. The company offers a wide range of custom interconnect solutions for custom interconnect applications, including Rack Mount Patch Panels, Audio Splitter Boxes, and Breakout Cables.

**Cable Assemblies**
Switchcraft® offers a wide range of custom cable assemblies for the cable assembly industry. The company offers a wide range of custom cable assemblies for the cable assembly industry, including Rack Mount Patch Panels, Audio Splitter Boxes, and Breakout Cables.

**Audio & Video Systems**
Switchcraft® offers a wide range of custom audio & video systems for the audio & video systems industry. The company offers a wide range of custom audio & video systems for the audio & video systems industry, including Rack Mount Patch Panels, Audio Splitter Boxes, and Breakout Cables.

**Audio & Video Systems**
Switchcraft® offers a wide range of custom audio & video systems for the audio & video systems industry. The company offers a wide range of custom audio & video systems for the audio & video systems industry, including Rack Mount Patch Panels, Audio Splitter Boxes, and Breakout Cables.

**Audio & Video Systems**
Switchcraft® offers a wide range of custom audio & video systems for the audio & video systems industry. The company offers a wide range of custom audio & video systems for the audio & video systems industry, including Rack Mount Patch Panels, Audio Splitter Boxes, and Breakout Cables.

**Audio & Video Systems**
Switchcraft® offers a wide range of custom audio & video systems for the audio & video systems industry. The company offers a wide range of custom audio & video systems for the audio & video systems industry, including Rack Mount Patch Panels, Audio Splitter Boxes, and Breakout Cables.

**Audio & Video Systems**
Switchcraft® offers a wide range of custom audio & video systems for the audio & video systems行业. The company offers a wide range of custom audio & video systems for the audio & video systems industry, including Rack Mount Patch Panels, Audio Splitter Boxes, and Breakout Cables.

**Audio & Video Systems**
Switchcraft® offers a wide range of custom audio & video systems for the audio & video systems industry. The company offers a wide range of custom audio & video systems for the audio & video systems industry, including Rack Mount Patch Panels, Audio Splitter Boxes, and Breakout Cables.

**Audio & Video Systems**
Switchcraft® offers a wide range of custom audio & video systems for the audio & video systems industry. The company offers a wide range of custom audio & video systems for the audio & video systems industry, including Rack Mount Patch Panels, Audio Splitter Boxes, and Breakout Cables.

**Audio & Video Systems**
Switchcraft® offers a wide range of custom audio & video systems for the audio & video systems industry. The company offers a wide range of custom audio & video systems for the audio & video systems industry, including Rack Mount Patch Panels, Audio Splitter Boxes, and Breakout Cables.

Switchcraft® offers a wide range of custom audio & video systems for the audio & video systems industry. The company offers a wide range of custom audio & video systems for the audio & video systems industry, including Rack Mount Patch Panels, Audio Splitter Boxes, and Breakout Cables.
### Applications

- **Locking**: for Pro Audio
- **Soldering**: for professional and duty.

- **Plugs**: for Bantam/TT, TRS, MB plugs.
- **VHS**: for DB25, TRS, TS, 1/4", or 1/8".
- **BNC**: for Audio, Video and DAT Connectors.
- **AES/EBU**: Meets specifications for AES/EBU.

- **Connectors**: for Digital audio including AES/EBU.
- **Breakout**: fanouts on all DB25, and eight or 1/4".
- **Jack**: for XLR, TRS, or 1/4".

- **Switchcraft®**: Pro Audio
- **www.switchcraft.com**

### Jacks & Plugs

- **Tall or Regular**: for Nickel plated terminals or brass terminals.
- **Heavy Duty**: for 1.5RU, 2RU, or 3-7 RU.

- **Color**: Available in Satin Gold, Black, or Stainless Steel.

- **Box**: Available in 1RU, 2RU, or 3-7 RU.

- **Terminal**: Male or Female.
- **XLR**: Male, Female, or Balanced.

- **Height**: Available in 3, 4, or 5 columns.
- **Number of Connectors**: 4, 6, 8, 10, 12, 16, 20, 24, 30, or 32.

- **Dimensions**: 3 RU, 4 RU, or 5 RU.

- **Package**: Available in 2x32, 2x26, 2x24, or 2x34.

### Connectors

- **AES/EBU**: Meets specifications for AES/EBU.
- **Balanced**: Balanced or Unbalanced.
- **Differential**: Balanced or Unbalanced.

- **Hi-Z**: Available in 2RU.
- **PS/2**: Available in 1RU.
- **BNC**: Available in 1RU.

### Videos

- **HD**: Available in 1RU.
- **DVI**: Available in 1RU.
- **HDMI**: Available in 1RU.

### Microphone Splitters

- **AES**: Available in 1RU.
- **PS/2**: Available in 1RU.
- **BNC**: Available in 1RU.

### Direct Boxes

- **PS/2**: Available in 1RU.
- **BNC**: Available in 1RU.

### Connectors

- **AES**: Available in 1RU.

### Microphone Splitters

- **AES**: Available in 1RU.

### Videos

- **HD**: Available in 1RU.
- **DVI**: Available in 1RU.
- **HDMI**: Available in 1RU.

### Microphone Splitters

- **AES**: Available in 1RU.

### Direct Boxes

- **PS/2**: Available in 1RU.
- **BNC**: Available in 1RU.

### Connectors

- **AES**: Available in 1RU.

### Microphone Splitters

- **AES**: Available in 1RU.
**Features / Benefits**

- **High Density**: Tight pin spacing allows for high density cabling.
- **Easy Punchdown**: Allows for quick and easy installation.
- **Rugged**: Designed to withstand rigorous use.
- **Precision**: Offers precise conductivity control.
- **Multiple Applications**: Suitable for various audio and video uses.

**Applications**

- **Cable housing/handles**
- **Switchcraft® Pro Audio**
- **www.switchcraft.com**

**Specifications**

- **Connectors**: Designed for optimal performance in professional audio environments.
- **DIN-based Patchbay**: Provides flexibility in connection options.
- **AES/EBU**: Supports professional audio standards.
- **XLR**: Used for balanced audio transmission.
- **BNC**: Connects coaxial cables.
- **HDMI**: Connects high-definition video and audio.
- **USB**: Supports computer connectivity.

**Connectors & Adapters**

- **PRO Audio**
- **PRO Video**
- **PRO Data**
- **PRO Power**

**Switchcraft® Pro Audio**

- **www.switchcraft.com**
- **Built-in 48V phantom power**
- ** Shielded & Unshielded Audio Connectors**
- **Precision Contacts**
- **High Durability**
- **Unsurpassed Quality**
- **Multi-Purpose RCA Jacks**

**Components**

- **BNC**: For video transmission.
- **XLR**: For balanced audio.
- **AES/EBU**: For digital audio.
- **HDMI**: For high-definition video.
- **USB**: For computer connectivity.

**Features**

- **Connectivity**: Designed for professional audio applications.
- **Durability**: Built to last in harsh environments.
- **Quality**: Ensures performance and reliability.

**Benefits**

- **Efficiency**: Reduces unnecessary components.
- **Flexibility**: Supports a variety of applications.
- **Simplicity**: Easy to use and install.

**Analog Audio Connectors**

- **1/4”**: Commonly used for balanced audio connections, such as in pro audio equipment.
- **RCA**: Used for stereo audio connections, often found in home entertainment systems.
- **XLR**: RJ45**: Often used for network connections, such as in data centers.

**Digital Audio Connectors**

- **AES/EBU**: Used for high-quality digital audio transmission.
- **DIN**: Used for various digital audio and video applications.

**Power and Control Connectors**

- **USB**: Used for data transfer and power supply in digital equipment.
- **Power**: Connectors for supplying power to devices.

**Video Connectors**

- **BNC**: Used for video signal transmission in broadcast and professional video applications.
- **DIN**: Used for video and audio connections, especially in professional audio equipment.

**Audio and Video Connectors**

- **Mini Jacks**: Commonly used for audio and video connections, especially in portable devices.
- **XLR**: Used for balanced audio connections.

**Switchcraft® Pro Audio**

- **www.switchcraft.com**: Website for Switchcraft, a provider of professional audio connectors.

**Specifications**

- **Current**: Rated at +48V for Balanced audio connections.
- **Voltage**: Rated at ±15V for Balanced audio connections.
- **Stripped**: Connectors are designed to be easily stripped for cable management.
- **Isolated**: Connections are isolated from chassis ground to prevent hum and noise.

**Applications**

- **BNC**: Used in broadcast and professional video applications.
- **Mini Jacks**: Used in portable devices and consumer electronics.
- **XLR**: Used in professional audio equipment.

**Design Considerations**

- **Build quality**: Constructed from durable materials to ensure longevity and reliability.
- **Mounting**: Designed for easy installation in various environments.
- **Pinout**: Configured for compatibility with industry standards.

**Connectors**

- **USB**: Used for data transfer and power supply in digital equipment.
- **Power**: Connectors for supplying power to devices.

**Network Connectors**

- **Ethernet**: Used for data transmission in local area networks (LANs).
- **Coaxial**: Used for video transmission in broadcast applications.
