

S-VIDEO CABLES

S-Video Cable Assemblies from Switchcraft

Switchcraft's new line of S-Video or SVHS Cable assemblies provides a high performance way to connect high end video equipment such as DVD players, digital camcorders, SVHS video decks, laser disc players, and televisions. These cables can be used in place of traditional RCA cable assemblies on equipment with S-Video inputs/outputs.

Features and Benefits

- Flexible, fully shielded, 4 conductor cable
- Isolated Y (brightness) and C (color) conductors
- Low insertion, 4 position mini-din connectors
- Gold or nickel plated connector housings and contacts
- Sure grip molded housings, strain reliefs
- 2, 3, and 5 meter lengths (longer lengths available)
- Compatible connectors and adapters also available
